# How Do We Compare?

- At any given point in time, we don't take a large group of students. Almost always, we take on 2 students every 2 months as it always depends on our availability
- You can look at other schools' rates like SMBU and Amplify and you can see we provide the better value
- We are very approachable – able to reply to students' inquiries within minutes via Twitter, Skype, e-mail
- We provide 1-year's worth of trading signals for every student who goes through an instructor-led class. Something other schools never do
- We check up on you after you've completed the course

**EQUITY SENSE®** STOCKS. OPTIONS. FUTURES. CURRENCIES.
